CLEAR VISION, EYE TESTING PROGRAM FOR CHILDREN AT SCHOOL

Bulk Billed Eye Exam

Early eye-examinations are extremely important.

It can help detect and correct serious eye conditions before they become permanent.

In school aged children it is also important to ensure your child has the correct visual aids such as glasses or contacts if they need it, or they may fall behind in school or act out due to headaches and problems focusing.

Your child may be eligible for a comprehensive eye-examination with no out-of-pocket expenses.

All medicare card holders under the age of 65 receive one full comprehensive eye examination every 3 years.

This examination includes;

- Eye chart exam
- Internal and external eye examination
- Clarity of vision
- Eyes Cooperation and Retina testing
- Testing report sent out to parents
